

Troop Software Factory

# Mobile Apps Development

- **Specialists in the development of custom mobile applications for Android and iOS.**
- **Boosting business with mobile solutions since 2015**

# Mobile Development Comprehensive Service

## **Design, development, publication and maintenance of Mobile Apps**

We create custom mobile solutions with cutting-edge technology, adapted to the objectives of each client and with support at every stage of the project.

## **Creating Apps Internationally since 2015**

We work with companies, SMEs and entrepreneurs offering a professional and personalized service, designed to meet their specific objectives and needs.

# Our History

**1999**

Start of activities.  
Development of customized  
web software solutions.

**2005**

The company's first SAAS  
with its CMS service for  
media.

**2015**

First team of specialists in  
Mobile App Development.

**Present**

We develop and publish  
Mobile Apps for leading  
global companies.

# Pillars

## Values | Quality, Innovation and Collaboration

We constantly strive to exceed our clients' expectations, fostering an environment of trust and growth within our team.

---

## Mission | To offer high quality IT services

That add value to projects of companies, SMEs and startups, enhancing their competitiveness and results.

---

## Vision | Leaders in digital transformation

To be leaders in the digital transformation of companies globally, offering customized software solutions that drive sustainable growth, constantly adapting to market changes.

# We create innovative mobile applications that transform ideas into real solutions

At Troop Software Factory, we help companies and entrepreneurs achieve their goals by providing efficient and high-quality technological solutions.

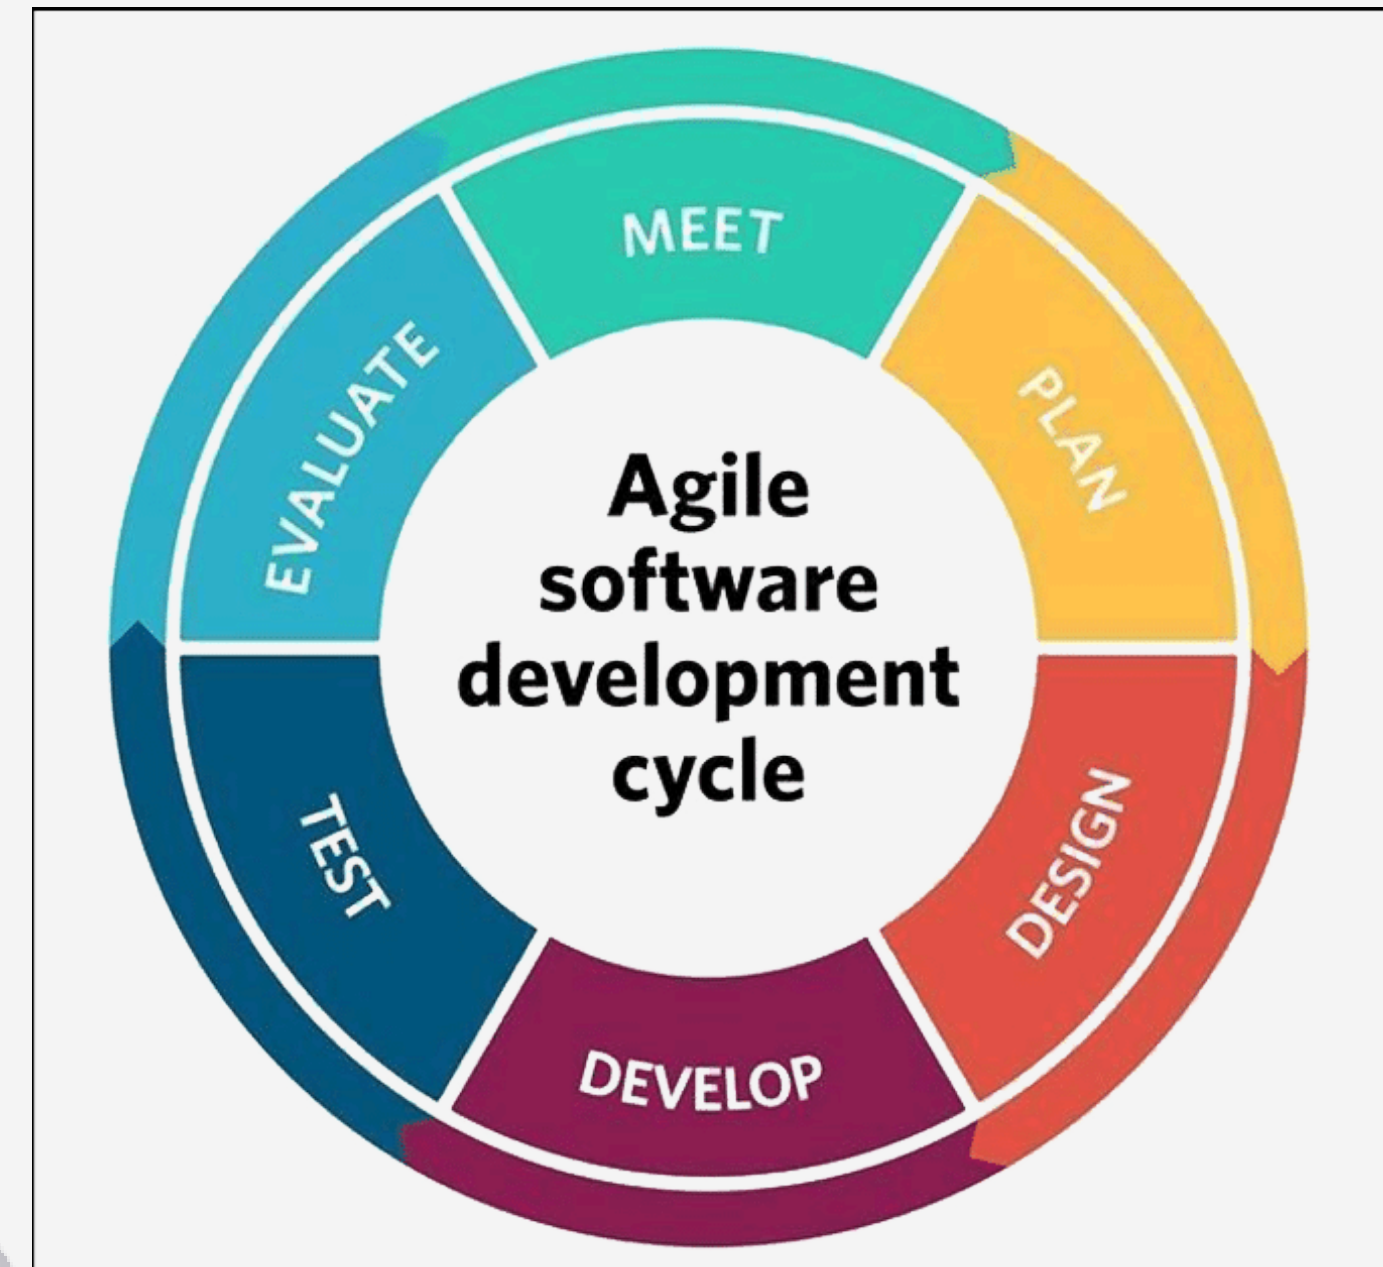

# Agile Development powered by AI

We implement agile and iterative development methodologies that adapt to the changing needs of each type of project, achieving:

- Reduced costs and delivery times
- Flexibility in the face of changes
- Reduced time to market
- Higher quality and reduced risks

We implement artificial intelligence to optimize key design and development processes; we want to exceed our clients' expectations.

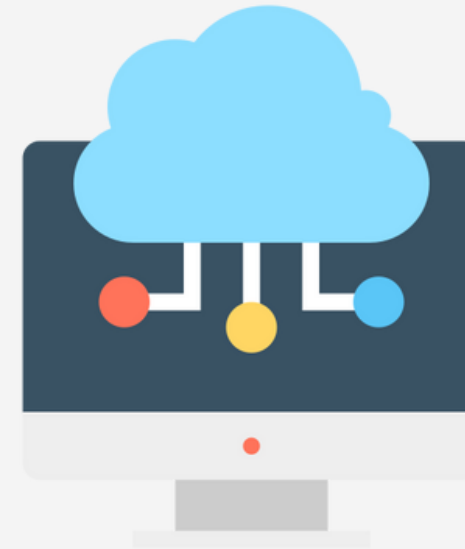

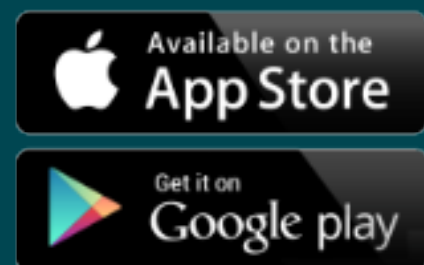

A Sprint in Agile

# From idea to publication

In addition to design and development, we take care of the entire publishing and production process so that the APP is available in the markets (App Store and GooglePlay) or for ad-hoc distribution.

## **Deployment + Cloud Infrastructure + Support**

We take care of all the tasks necessary to put into production and host the application we develop for you.

## **Artificial intelligence**

We optimize our processes with AI and incorporate AI solutions into systems and applications, harnessing all its power to transform and improve each project.

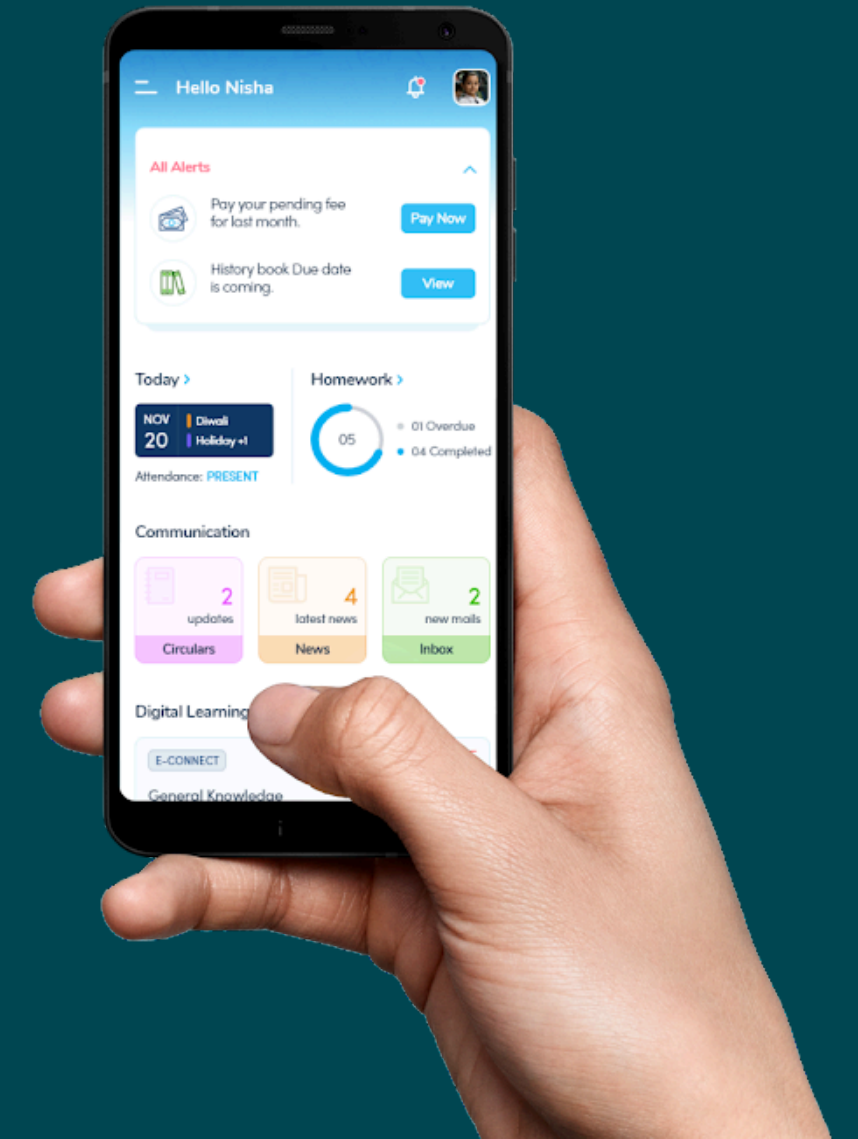

## **Focus on users**

We have a team of user experience interface (UI) design experts focused on mobility to optimize the user experience (UX).

# Argentine company developing MOBILE APPS at an international level since 2015

We take care of the entire process, from design to publication and maintenance of your MOBILE APP.

# Your ideal IT partner

## Commitment to your goals

We get involved with each project from the idea to the launch, prioritizing its objectives.

## Constant Innovation

We apply AI and advanced technologies to create high-impact apps.

## Agile IT Teams

Solid management that ensures project continuity, even with resource rotation.

## Multiplatform Development

Además de la versión para Android y iOS, integramos la versión WEB de la APP para que pueda ser utilizada desde el Browser.

## Apps integrated into Systems

We integrate mobile solutions for Android and iOS into your system, optimizing processes and notifying users in real time.

**We become your long-term strategic IT ally, driving the growth of your business**

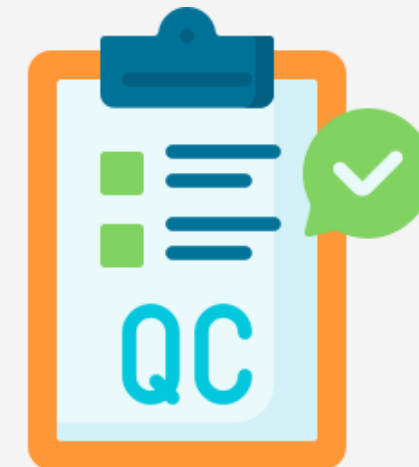

# Why choose us?

## **Experience and Track Record since 1999**

More than 25 years of experience offering reliable solutions supported by a team of professionals dedicated to excellence at each stage of the project.

## **Quality Assurance & Quality Control**

We apply code review, automatic testing and UX evaluations to ensure high quality software at each stage of development

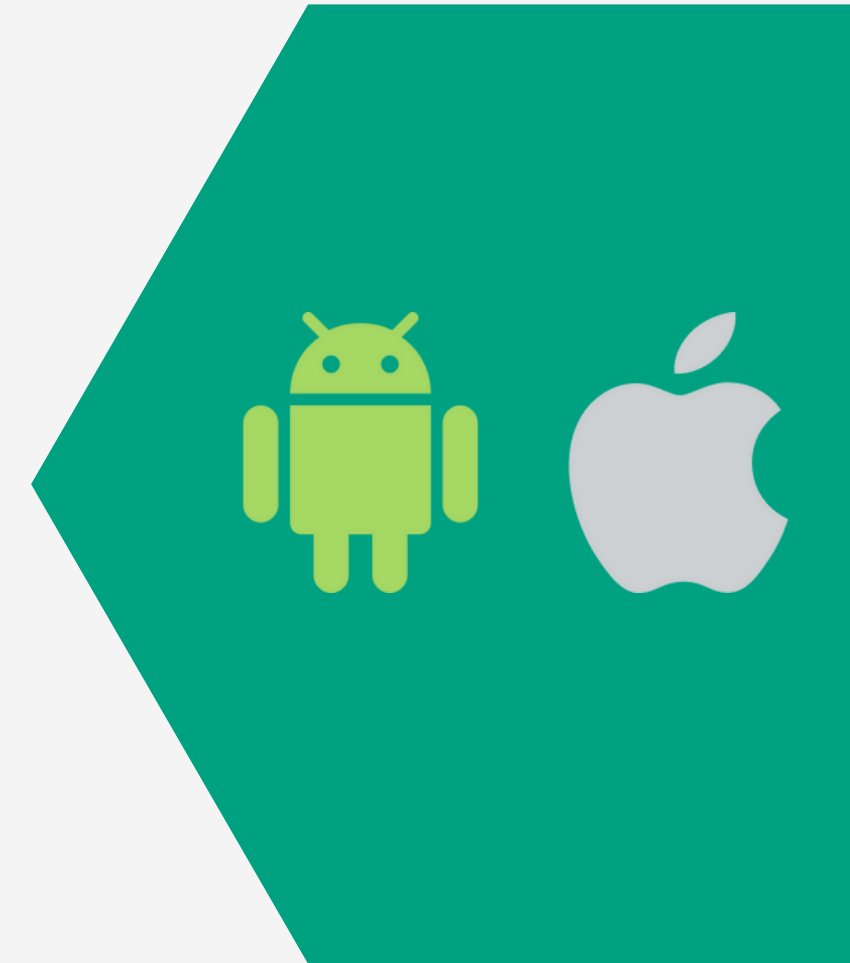

## **Flexibility and Guaranteed Scalability**

We offer adjustable options that grow with each company, without long-term contracts, ensuring constant evolution with us.

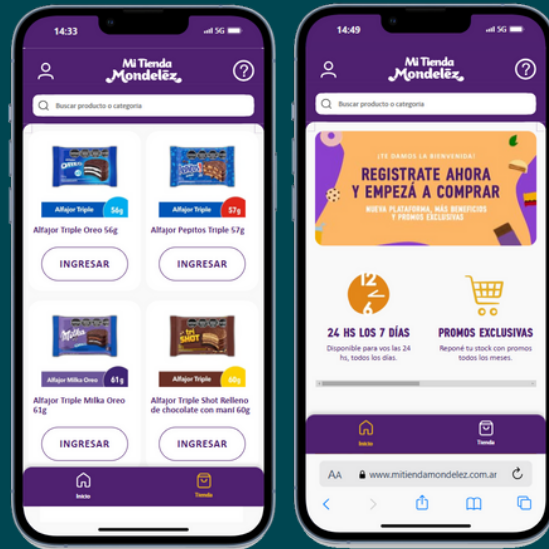

## **Personalized Attention and Comprehensive Support**

We provide dedicated pre- and post-sale attention, with quick responses and special support for urgent situations.
